

# ERASMUS PLUS 2017-VISIT TO LA BALANGUERA (PALMA-MALLORCA-SPAIN)

18th & 19th MAY 2017

The activities started on Thursday 18th, the twelve members coming from Hamburg (Germany), Sicily (Italy) and Zlotow (Poland) visited our center in order to participate in our culture day, which is celebrated every year in May.

The visit started with a tour around the different premises of our school, scorted by the coordinator of the Majorcan activity, Mr. Reus.

After they participated in the handing in of the different literary, photography prizes, and other contests.

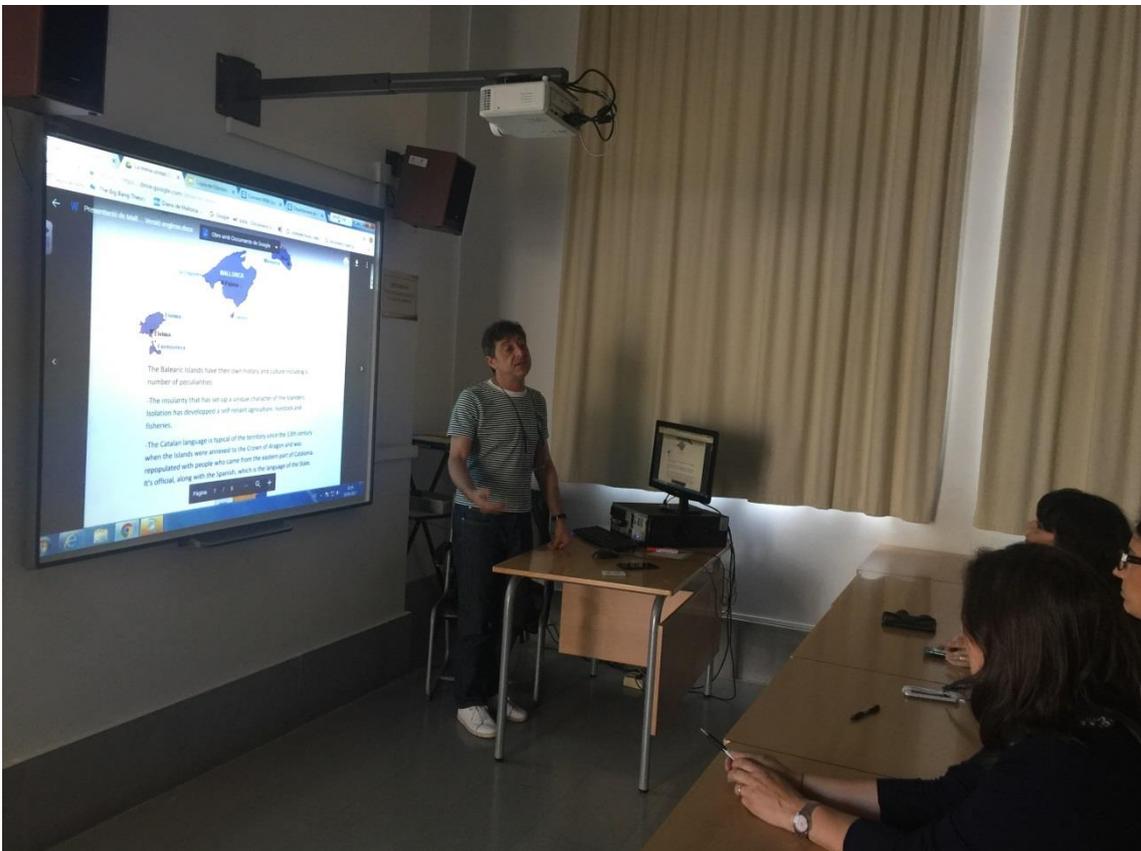

In order they could see some features of our culture, the pupils of the traditional Majorcan dance of our school showed, wearing the traditional customs, how our dances have been preserved through the years. Then, a group of devils “Dimonis Trabucats”, meaning crazy devils, lit the court of La Balanguera with fire, smoke and some small fireworks.

Thanks to the generosity of our Association of pupils, we could taste the typical Majorcan barbecue.

The following day we started the official activities, and we

showed the participants how we use the new technologies in our center, mainly the Edmodo platform. Miquel and Mr. Rigo, the Edmodo coordinator explained to the members how we use it and how useful is this platform for our community.

After this working section, we gave them a souvenir of their stay in Majorca, offering them a typical brunch from the island (bread with oil, cheese and "camaïot") and finally the participants left the center but we followed with other set activities.

The first one was a cycling activity along the Maritim Promenade in Palma. We went to Ciutat Jardí where we ate two different types of paella in the restaurant "El Palau de

l'arròs" and thanks too the Students Association of La Balanguera the participants of Erasmus Plus enjoyed the dinner that every year is organized in Son Pardo, to celebrate the end of the activities and they shared the different activities and dances which they have learnt throughout the year.

These two days were very intense and helpful for all of us. We really hope they have enjoyed their stay with us and that they will remember Majorca forever.
